

QueenArtStudio Gallery is pleased to invite you to the international exhibition **"Contemporary Berlin 2026"** which will be held in Berlin at Galerie Heinz Galinski from June 27 to July 3, 2026.

The Expo presents a carefully curated selection of International Artists from various countries, whose work spans a wide range of media: from painting to sculpture, from photography to digital art, including installations and art jewelry. The curatorial path has been designed to create a coherent and dynamic dialogue between the different works, where each artistic language engages with the others within a fluid visual narrative. The goal is to offer visitors a comprehensive and critical overview of current trends in the contemporary art scene, highlighting art's ability to interpret the complexity of the present through new perspectives and aesthetic sensibilities.

Galerie Heinz Galinski is a prominent exhibition venue located in the center of Berlin. Characterized by a minimalist and functional design, the gallery offers a bright and versatile exhibition space, ideal for presenting contemporary artworks in a high-profile international context.

The location embodies the concept of the contemporary "White Cube." Being situated in Mitte, in the Gesundbrunnen district, means operating in the beating heart of Berlin's art scene, surrounded by a cultural energy that is unique in the world. This prime location allows the exhibition to become part of one of the most dynamic and influential areas of the German capital, fostering dialogue with an international and cosmopolitan audience.
